

SOLAREX BOUNTY TERMS

At Solarex, our aim is to create a decentralized cryptocurrency-based sustainable and clean energy source for Sub-Saharan Africa and beyond. We are now starting a bounty campaign, so participants can help us spread the news about Solarex to the community, and earn free Solarex tokens as bounty reward monthly. In the Solarex Pre-ICO, there will be 20,200,000SRX tokens that would be made available for the entire bounty program.

To earn and receive SRX tokens, you must first create an email based Solarex account. It is vital that you should have access to your email and Solarex account password, as we will be sending bounty rewards directly to your Solarex account. After creating a Solarex account, keep spreading the news about Solarex Pre-ICO in the Crypto community as wide as possible by following simple instructions on this post.

By completing each bounty task, you will receive bounty stakes, which will be splitted into the following categories:

- Youtube
- Telegram
- Facebook
- Twitter
- Linkedin
- Article posting

At the end of Pre-ICO sales, we will distribute 20,200,000SRX tokens proportionally to to each participant in each category.

Twitter

- Follow our official twitter.com/solarex handle
- Log into your Solarex Account
- Connect Twitter and Solarex in your account page (connect with Twitter button)

To be eligible for bounty reward, you must ensure that you retweet news from the official Solarex twitter handle marked with hashtags- #icosrx, #solarex_tokens, #srx_ico. These retweets must be done 5 days after their publication and not later, and ensure you do not delete them until the end of the Pre-ICO.

Rules and regulations

- Write your own post at least once per week dedicated to the Solarex Project, be positive in your language and use only these approved hashtags: #icosrx, #solarex_tokens, #srx_ico (This is mandatory)
- Bot accounts will be banned without notice
- Multiple accounts will be blacklisted
- Do not share or retweet tweets that are answers to other users
- If for any reason you are unable to share post for a week, you will be disqualified
- No spam, abuse or foul language is allowed

Terms and conditions

- You must have at least 300 followers and follow official Solarex Twitter handle
- Your twitter account must be real/original
- The twitter account must be at least 4 month old
- The number of your followers is been fixed at the moment you connect your account and doesn't change during the bounty campaign
- You must retweet/share Solarex official tweets and updates every week until, the ICO ends
- Share at least 5 Solarex tweets per week and post one personal tweet using the designated hashtags: #icosrx, #solarex_tokens, #srx_ico.
- All post/tweets must be visible to the public

Each share, tweet and retweet will earn you the following amount of stakes:

- ❖ Sapphire (10,000 followers and more)- 5 stakes
- ❖ Gold (1000 to 9999 followers)- 3 stakes
- ❖ Silver (300 to 999 followers)- 1 stakes

Total amount of SRX tokens distributed in this category is 3,100,000SRX tokens

NB: We **only** count the posts that are marked with #icosrx, #solarex_tokens, #srx_ico by **our team**, so if you add the hashtag to any posts, it is not counted.

Article Post (Write a post in a popular Blog/Social media platform about Solarex)

Write a post about Solarex in English, with at least 800 words and containing two links to <https://www.solarex.io/blog>. We will classify each article as standard (10 stakes), professional (25 stakes) or Unique (50 stakes). It can be your blog or your personal social media page, for example Facebook or LinkedIn Page. The article should be published and visible to search engines. To classify

your article, we would have to revert to the popularity of the medium used for publication and the quality of the content. Total amount of SRX tokens distributed in this category is 2,500,000.

Send us your articles via: articles@solarex.io

Bounty Campaign FAQ

Q1: How and when can you receive your bounty?

Answer: At the end of Pre-ICO, your final amount of stakes will be visible in your Solarex account. We will distribute 20,200,000 SRX tokens in proportion to the amount of stakes in each bounty campaign participants has earned in each category.

For example, after counting all Facebook likes, we will make a table where everyone who reposted will see their personal bounty stakes earned in Facebook category. Since there are 4,200,000SRX allocated to the Facebook category, these tokens will be distributed between all members participating in the bounty campaign according to the amount of stakes they have earned. This applies to all categories.

Q2: Will stakes be pooled together

Answer: The stakes earned in each category will not be pooled together, but rather the tokens in each category will be divided in each category separately. The information about stakes already earned is displayed in your Solarex account and would be updated every 48 hours.

Q3:

What is a Stake?

Answer: A stake is an algorithm used for calculating the total tokens to be given to a participant based on the level of his involvement in a bounty campaign.

Q4: How can one calculate the equivalent amount of tokens earned based on the number of stakes?

Answer: If you interested in Facebook bounty Campaign for example, Facebook bounty campaign has an allocation of 4,200,000SRX tokens. This amount is shared among all participants taking part in the Facebook bounty campaign. Lets assume they are 5000 participants involved in the Facebook bounty campaign category.

Assuming one has 500 friends, which is equivalent to 5 stakes. You will receive 5 stakes per week if you carry out the entire assigned task. The bounty manager will then add up all the stakes you have for the month.

This is calculated thus: $5 \times 4 = 20$, when the bounty ends and there are say 12,000 stakes earned by all participants in the Facebook category, the calculation on how to get individual tokens based on individual stakes is done thus:

Total number of tokens allocated in Facebook Category/Total number of participants

$4,200,000/12,000 = 350$ tokens per stake

Now if one has 20 stakes, you will receive $350 \times 20 = 7000$ SRX tokens

Q5: What means can one use in case of questions or assistance?

Answer: Here is our email: bounty@solarex.io just in case you have questions regarding the bounty campaign or you need assistance feel free to contact us.
